Re: Permit to fill in Wetlands, Manor Heights Subdivision

Dear Bob:

Back on May 17, 1990, I submitted a letter and application to the U.S. Army Corp of Engineers to obtain a permit to fill in a wetland area. The area we are proposing to fill is Lots 4-7 in the Manor Heights Subdivision within the City of Oshkosh, located in Government Lot 1 of Fractional Section 1, T.17N., R.16E., or East of U.S.H. "45" and South of Waukau Avenue. To date we have been in contact with Shar Barendrecht, Ron Bruch, and Dan Folz of the D.N.R. and it was determined that the area in question is above the ordinary high water and as a result they have no jurisdiction.

I had a telephone conversation with Mike Graham of the Corps of Engineers and he suggested that I contact the City and County to get their feelings regarding the fill. The City was appraised of the permit as they are the governing body. I don't know if the County is a governing body also or if the Corp wants to make sure the County has no objections. Please let me know if you are a governing body for future reference.

We would appreciate any positive reaction you, the County, could give us toward obtaining a permit from the Corp. A letter stating that the County has no objections, guidelines as to the filling procedure, and reasons for filling would be greatly appreciated.

In looking at the Shoreland Ordinance, it appears that I misunderstood the D.N.R. regarding the 35 foot strip inland from the ordinary high water mark. It appears this is for tree removal and shrubbery clearing and does not mention filling and grading. We would like to assure a proper grade from the ordinary high water mark inland to allow for runoff.

Mr. Bob Braun, Zoning Administrator -2-
Winnebago County Court House

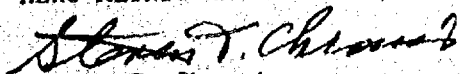

June 15, 1990

Enclosed is the letter, permit and accompanying exhibits which were submitted to the Corp along with a letter from the Corp for your files.

The owner and I would be more than happy to meet with you at the site to discuss this matter further if you so desire.

Very truly yours,

AERO-METRIC ENGINEERING, INC.

RE: Fill - Manor Heights

Dear Steve:

According to our Wetland maps, a portion of the property away from the lake was not in Wetland by virtue of a Conditional Use Permit issued for fill. The remainder of the property along the shore remained in Wetland.

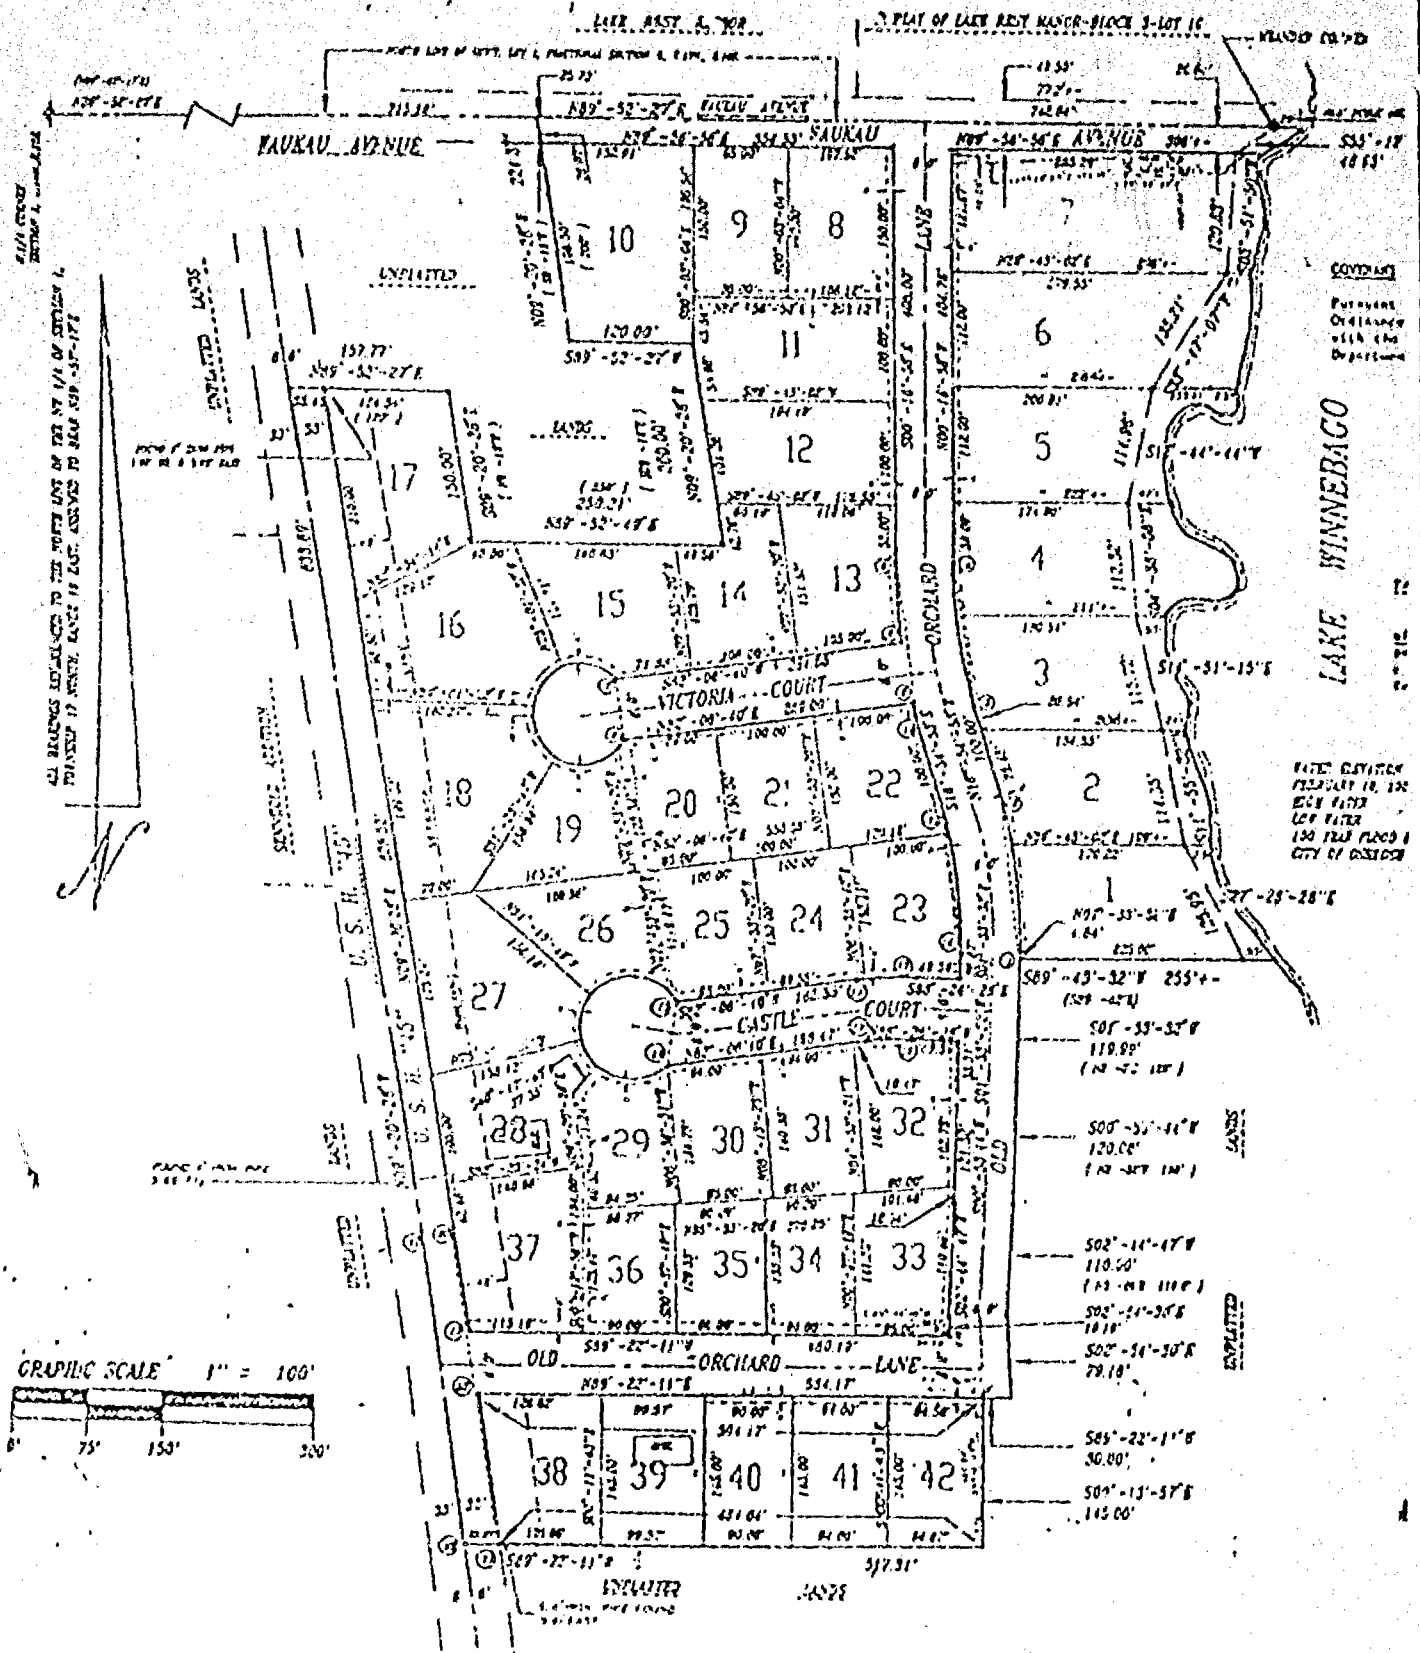

In accordance with the provisions of Chapter 59.971(7), an area annexed after May 7, 1982 is subject to the provisions of a County ordinance although those provisions are then administered by the annexing municipality. Therefore, the Shoreland, Floodplain, and Wetland regulations (including lot size, setbacks, and hearings) of Winnebago County are in effect, but Winnebago County is not a regulatory agency.

Respectfully,

Robert E. Braun
Zoning Administrator

RE: Filling in the floodplain/Manor Heights

Dear Tom:

Based upon the information you have submitted, the Dept. of Community Development has conditionally approved your permit to fill in a floodplain in the above referenced plat.

The conditions of approval are as follows:

- 1) Shoreland setbacks of 75 ft. be maintained in the proposed plat.
- 2) No fill to be permitted between the average annual high water mark and the water.
- 3) Verification of project completion to be submitted relative to the approved fill elevation prior to application for building permits.
- 4) Submittal of evidence the proposed area of fill is not a wetland under the jurisdiction of the Army Corps of Engineers (Contact Gary Knapton 414-766-3531).
- 5) At the time of building permit application, evidence be given indicating compliance with Section 30-50 of the City of Oshkosh Floodplain Ordinance and any other ordinance or Wisconsin Statute.

Please keep in mind that this conditional approval relates to those issues under the jurisdiction of the City of Oshkosh. It is your responsibility to insure compliance with any other agency's regulations that may be applicable to filling in the floodplain.

If you have any questions, I can be contacted at 236-5055.

Sincerely,

CITY OF OSHKOSH

Subject: MANOR HEIGHTS
GL 1 S 1 T17N R16E
City of Oshkosh, Winnebago County

Dear Mr. Chronis:

We have examined MANOR HEIGHTS and do not object to this final plat. On October 23 and November 2, we received a copy of the plat from the Department of Transportation, Division of Highways and Transportation Services and the Winnebago County Planning & Zoning Committee, respectively, certifying that they do not object to this plat. Therefore, the original drawing has been certified as complying with the requirements of: s. 236.15, s. 236.16, s. 236.20, and s. 236.21 (1) and (2) Wis. Stats.; Hy 33, Wis. Admin. Code.; and, the Winnebago County Planning & Zoning Committee.

The following changes or corrections must be made to satisfy the conditional certification. Underlining indicates corrected or added information that must be shown. Any variances with these conditions will require written notification to and verification by this office prior to plat approval.

s. 236.16 (3) In the Location Sketch, Lake Rest Ave., north of the plat, must be labeled as "60' public access" and the approximate 1250'± shoreline length from the northeasterly corner of this plat to the street delineated.

s. 236.20 (2) (c) The bearing along the east line of lot 24 must be changed to N06°35'40"W.

West of lots 16-18, the center line of U.S.H. "45" must be marked "recorded as S09°18'E".

A 15' storm sewer easement must be added along the line common to lot 12 and lots 13-14, dimensioned with the 7.5' easement half-widths.

Page 2

Mr. Steven T. Chronis
MANOR HEIGHTS
November 7, 1989

- s. 236.20 (2) (i) In the north point reference, the bearing for the north line of Section 1 must be changed to $N89^{\circ}52'27''E$ to agree with the plat drawing.
- s. 236.20 (2) (k) In the curve data table, the chord bearing for curve 11-12 lot 23 must be changed to $S06^{\circ}38'23.5''E$.
- s. 236.21 (1) A revision date, "Revised this ____ day of _____, 19____", must be placed near the land surveyor's seal and signature on the revised sheets of the plat.

The following item is not a condition of this certification. At the option of the surveyor, the spelling may be changed without return of the plat to this office:

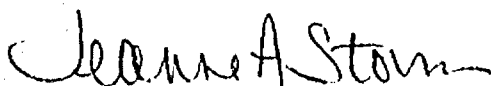

- In the Legend Note, "hundredth" is misspelled.

After all conditions of the certifications of no objection have been met, the plat may be submitted to the local governing bodies for approval. Local, government units, during their review of the plat, will resolve, when applicable, that the plat:

- complies with local master plans, official map or subdivision control ordinances;
- conforms with areawide water quality management regulations;
- complies with Wisconsin shoreland management regulations;
- resolves possible problems with storm water runoff;
- fits the design to the topography;
- displays well designed lot and street layout;
- includes service or is serviceable by necessary utilities.

Any changes to the plat involving details checked by this Department, the Department of Transportation, Division of Highways and Transportation Services, or, the Winnebago County Planning & Zoning Committee will require submission of the plat to the Department for recertification before the plat is eligible for recording. Such changes can be found by comparing the original drawing with the copy of this plat we furnish the letter recipients listed.

Sincerely,

Jeanne A. Storm, Supervisor

STATIONER'S CERTIFICATE

I, Steven T. Chronis, Winnebago Registered Land Surveyor of Winnebago County, Wisconsin, do hereby certify:

That I have surveyed, divided, and mapped the above described part of Government Lot 1, of Fractional Section 1, Township 17 North, Range 16 East, 14th Ward, City of Oshkosh, Winnebago County, Wisconsin.

That I have made such survey, land division, and plat as the City of Oshkosh, Wisconsin, has caused me to make, and that I have caused the same to be recorded in the Office of the Register of Deeds for the County of Winnebago, Wisconsin, and that I have caused the same to be published in the Oshkosh Northwestern, a newspaper published in the City of Oshkosh, Wisconsin, and that I have caused the same to be published in the Oshkosh Northwestern, a newspaper published in the City of Oshkosh, Wisconsin, and that I have caused the same to be published in the Oshkosh Northwestern, a newspaper published in the City of Oshkosh, Wisconsin.

That I have fully complied with the provisions of Chapter 224 of the Wisconsin Statutes and the Subdivision Regulations of the City of Oshkosh in surveying, dividing, and mapping the same.

Dated this 26th day of September 1929.

Steven T. Chronis
Winnebago Registered Land Surveyor, 5-0913

COVENANT

Pursuant to Section 30-49 (K) of the City of Oshkosh Subdivision Ordinance, upon final grading, the developer and/or owner shall comply with the approved storm drainage and grading plan as submitted to the Department of Public Works.

LAKE WINNEBAGO

PARKS DEDICATION FEE

Pursuant to Section 30-45 (c) (6) Proportionate Payment in Lieu of Dedication of the City of Oshkosh Subdivision Ordinance, a \$100.00 per unit fee shall be paid by the Owner/Agent prior to issuance of a Building Permit. The fee shall be used for neighborhood Park and Recreation Area purposes.

Dear Ms. Serwas:

Subject: Manor Heights
City of Oshkosh
USH 45
Winnebago County

The subject final plat was transmitted to the Wisconsin Department of Transportation, Division of Highways and Transportation Services, by the Department of Agriculture, Trade and Consumer Protection on October 5, 1989 under the provisions of Section 236.12, Wisconsin Statutes.

The Division of Highways and Transportation Services has considered this plat in the light of the Rules and Regulations Governing Land Subdivision Plats Abutting State Trunk Highways and Connecting Streets, Chapter Hy 33, Wisconsin Administrative Code, promulgated under authority of Section 236.13(1)(e), Wisconsin Statutes.

The Division of Highways and Transportation Services does not object to the subject final plat as submitted and so certifies in accordance with the provisions of Section 236.12, Wisconsin Statutes.

Before any public street or road connection to the state trunk highway, as indicated on an approved final plat, can be constructed, a permit must be obtained as required under Section 86.07, Wisconsin Statutes. The required permit for a public street connection will be issued only to the local unit of government.

We wish to thank you for your cooperation in these matters of mutual interest.

Sincerely,

J. W. Dresser, P.E.
State Design Engineer for Hwys.

RE: Manor Heights Final Plat - City of Oshkosh

Dear Steve:

Thank you for submitting the Final Plat for the Manor Heights Subdivision. I do not anticipate any problems with this final plat. In the September 27 letter accompanying the plat you indicated that surface water will drain into Lake Winnebago, therefore pre and post construction runoff calculations are not needed. I agree with you on that point, however the County still requires verification of where and how the water is to drain into Lake Winnebago. Therefore, I am requesting a copy of the drainage plan.

Please send me a copy of the completed drainage at your earliest convenience. Approval of the final plat cannot be made until the County Land and Water Conservation Department reviews and approves the drainage plan.

Thank you for your cooperation. If you have any questions please call or write.

Sincerely,

Jerry L. Bougie

City of Oshkosh, Winnebago County

PERMANENT FILE NO. 16706

Dear Mr. Schmidt:

We have received the above-named plat. Your county planning agency has the authority to object to this plat under the provisions of s. 236.12 (2) (b), Wis. Stats. Enclosed are four copies for your review. Your agency must either object, or certify no objection within 20 days of your receipt of this submittal.

- If the plat is objected to, we must be notified by letter (the original drawing will be returned to the surveyor for revisions).
- If the plat is certified as nonobjectionable, we must receive a print bearing your certification so that we may finalize our review (see s. 236.12 (6), Wis. Stats.).

It is important that this matter be expedited to avoid delays in processing the plat and to comply with the time limits set by statute. By the date shown below this office must either object to or certify the plat as nonobjectionable for all the objecting agencies involved, or, the subdivider can demand immediate certification of no objection.

Sincerely,

Jeanne A. Storm mrv

Re: Manor Heights; Preliminary known as OLD ORCHARD SUBDIVISION

Dear Jerry:

Enclosed are four (4) prints of the subject Final Plat for your review. The City of Oshkosh is currently working on the Established Street Grades and when completed, I can complete our Drainage Plan. This should happen by mid October.

The calculations for pre and post construction were not made as all the surface water runoff will go directly into Lake Winnebago and not through any private property. The City of Oshkosh will approve our Drainage Plan and be the policing agency to assure that the lot owners adhere to the elevations posted. So, you should not need to concern yourself about drainage.

If you should have any questions concerning the enclosed, please give me a call.

Very truly yours,

AERO-METRIC ENGINEERING, INC.

Re: Old Orchard Subdivision
(Preliminary Plat) - City of Oshkosh

Dear Steve:

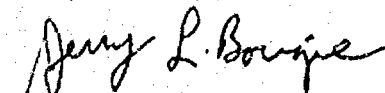

The Winnebago County Planning and Zoning Department has reviewed the aboved named plat. The Department certifies this plat as nonobjectionable, however, before final plat approval the county needs to review the completed drainage plan and the following "Restriction for Public Benefit" must be added on the face of the final plat:

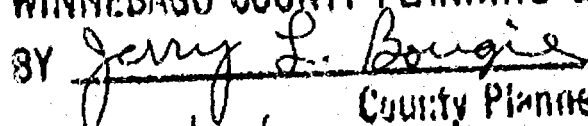

RESTRICTION FOR PUBLIC BENEFIT - WINNEBAGO COUNTY

Pursuant to section 18.58 of the Winnebago County Land Division Ordinance, upon final grading, the developer and/or owner shall comply with the surface water drainage plan as approved by the Winnebago County Land and Water Conservation and Planning and Zoning Departments.

If you have any questions please call or write. Thank you.

Sincerely,

Jerry L. Bougie

PERMANENT FILE NO. 16901

Subject: OLD ORCHARD SUBDIVISION
GL 1 S 1 T17N R16E
City of Oshkosh, Winnebago County

Dear Mr. Chronis:

The Department of Agriculture, Trade and Consumer Protection certifies this preliminary plat as nonobjectionable. The Department of Transportation, Division of Highways and Transportation Services will review the plat if it is an "abutting plat" as defined by s. Hy 33.03 (3), Wis. Admin. Code. The Department of Industry, Labor and Human Relations will review the plat, if unserved, in accordance with Chapter ILHR 85, Wis. Admin. Code. On the final plat, the Winnebago County Planning and Zoning Committee will also be an objecting agency.

Local government units, during their review of the plat, will resolve, when applicable, that the plat:

- complies with local master plans, official map or subdivision control ordinances;
- conforms with areawide water quality management plans, if sewerage;
- complies with Wisconsin shoreland management regulations;
- resolves possible problems with storm water runoff;
- fits the design to the topography;
- displays well designed lot and street layout;
- includes service or is serviceable by necessary utilities.

COMMENTS FROM PRELIMINARY PLAT REVIEW:

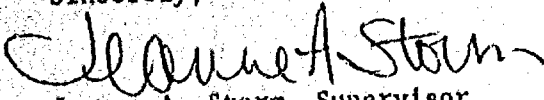

- s. 236.16 (1) The lots have the minimum width and area required by this section. However, when public sewer is not available, lot sizes are also determined by soil tests completed in accordance with Chapter ILHR 85, Wis. Admin. Code (Rules of the Department of Industry, Labor and Human Relations).
- s. 236.16 (2) The streets meet the minimum width required by this section.
- s. 236.16 (3) On the final plat, the public access to Lake Winnebago must be identified by noting the width of such access and the pertinent shoreline measurements to the access.

Page 2
Mr. Steve Chronis
OLD ORCHARD SUBDIVISION
July 19, 1989

s. 236.21 (2) (a) When the final plat of the subdivision is received in this office, either the Department of Industry, Labor and Human Relations must be listed in the Owner's Certificate as a reviewing agency or we must receive the clerk's certification regarding sewerage facilities.

If there are any questions concerning this review or preparation and submittal of the final plat, please contact our office.

Sincerely,

Jeanne A. Storm, Supervisor
Plat Review Unit

JUL 24 1989

Ms. Donna Serwas
Clerk, City of Oshkosh
P. O. Box 1130
Oshkosh, WI 54902

Dear Ms. Serwas:

Subject: Old Orchard Subdivision
City of Oshkosh
USH 45
Winnebago County

The subject preliminary plat was transmitted to the Wisconsin Department of Transportation, Division of Highways and Transportation Services, by the Department of Agriculture, Trade and Consumer Protection on July 5, 1989 under the provisions of Section 236.12, Wisconsin Statutes.

The Division of Highways and Transportation Services has considered this plat in the light of the Rules and Regulations Governing Land Subdivision Plats Abutting State Trunk Highways and Connecting Streets, Chapter Hy 33, Wisconsin Administrative Code, promulgated under authority of Section 236.13(1)(e), Wisconsin Statutes.

The Division of Highways and Transportation Services objects to the subject plat as it does not comply with Section 33.05 of the above-mentioned Rules. Certification or nonobjection is conditioned upon full compliance with these and other pertinent requirements set forth in the Rules.

Section 33.05 relates to access restriction between a state trunk highway and abutting lots of a subdivision plat. It is required that an access restriction clause, in the form as is stated below, be added to the face of the plat when submitted for final review.

"As owner I hereby restrict all lots (except Lot 17 which is allowed one access point), in that now owner, possessor, user, nor licensee, nor other person shall have any right of direct vehicular ingress or egress with USH 45, as shown on the plat; it being expressly intended that this restriction shall constitute a restriction for the benefit of the public according to section 236.293, Wisconsin Statutes, and shall be enforceable by the Department of Transportation."

July 21, 1989
Page 2

It is requested that the subdivider comply with Section 33.10 of the Rules by consulting with the Wisconsin Department of Transportation office in Green Bay at 944 Vanderperren Way regarding this matter.

The final plat, incorporating the appropriate revision, corrections or additions in compliance with the above-referenced Sections of the Rules, must be submitted in order that the objections noted herein may be removed.

We wish to thank you for your cooperation in these matters of mutual interest.

Sincerely,

For L.S. Kenyon
