John Brink, 1835, original corner post. C. Palmer, County Surveyor, 1876, resurvey Town of Nekimi, set a squared limestone for this corner location. G. A. Randall, Deputy County Surveyor, 1886, No. 484, calls for a stone at this corner, Vol. 1, County Surveyor Notes. I searched for bearing trees, none remain. Steve Chronis, 1977, tie sheet calls for a Berntsen Monument at this corner, set from the state hwy. plans of 1950. I found the Berntsen set by Chronis. I held this location also, as it fit an old fence line West which I felt was the best available evidence of Palmer's 1876 North-South location and it fit a proportion against Palmer's distances between the 5-1/4 corner of Section 21-17-16 and the 5-1/4 corner of Section 22-17-16 for East-West location within 6.4 ft.

Original Gov't Survey; 1st quarter of 1835.
Resurvey of township by Palmer Nov. 1876. In 1950 the State makes reference by "41" project F-03-2(21). In 1975 State prepared plans and took R/W for project 1109-1-21 and at that time set a bathey rod or back in 1950. S. Chronis found bathey rod and it fit the reference per the 1950 plans and accepted same for corner. Unable to set a berntsen monument as corner falls in ditch. When conditions permit, will replace bathey rod with Winnebago County Berntsen monument. Dec. 1993, WisDOT found section corner monument disturbed. Reset using remaining original ties and project control.
