RE: Navigability Determination Map Updates

Diane/Janet:

Please update the GIS for the following DNR navigability determinations:

1. NE SE, NW SES 24, T 18 N, R 14 E (CHRISTIENSEN). MARK NONNAVIGABLE PER CO DETERM, 7-12-02, PER DNR CRITERIA.

TABLE STREAM SECTIONS AS APPROPRIATE. IF ANOTHER DETERMINATION WAS DONE, LIST THAT ONE FIRST AND THE MOST RECENT DETERMINATION AS A RE-DETERMINATION.

Diane: After updating, determine the affected parcels where navigable and attach a list of parcel numbers affected and within 1000' or 300' so that file 13 can be updated. Tag stream section with DNR Determ & Date. Modify shoreland zoning appropriately.

Janet: Update File 13, file in parcel file(s) and microfiche in Surveyors Records according to Section, Town, Range.

Subject: Navigability Request - Town of Rushford, SE Sect 24, T 18 N, R 14 E

Jeff,

GIS navigability layer is being corrected. Area is only within Town zoning jurisdiction. As noted in your letter of July 10, 2002, East Central still needs to be involved regarding non-metallic mining reclamation permitting on behalf of Winnebago County.

RADTKE CONTRACTORS, INC.

6408 State Road 110 • Winneconne, Wisconsin 54986 • 920-582-4114

July 10, 2002

Mr. Robert Braun
Winnebago County Zoning Department
P.O. Box 2808
Oshkosh, WI 54903-2808

Dear Mr. Braun:

Radtke Contractors is working with Robert Albright to develop a sand pit near the intersection of County Road E and Highway 118 (see attached location map). In researching the property, I found that the majority of the site falls under County jurisdiction because it is, surprisingly, under shoreland zoning. Two ponds in an abandoned sand pit on the north side of County E are shown as navigable and the 1000' shoreland zone encroaches into Albright's property (see attached GIS web site map).

I would respectfully request that the County remove the navigability determination from the two ponds on the north side of County E for the following reasons:

- The ponds are completely private ponds and are not natural. They were created as part of the sand mining procedure on what was formerly agricultural land (see attached aerial photo copy from 1941—source Winnebago Co. LVCD).
- The ponds are not accessible to the public and are not connected directly or indirectly to any navigable watercourse.
- The ponds are more than 500 feet away from the nearest navigable waterway (the ditch to the NE).

I had asked Kristy Rogers from the DNR to write you a letter requesting change of status, but she said that I could do the same thing and leave her out of the process. Hence the request.

I would appreciate receiving some correspondence regarding your decision. The change will greatly simplify the sand pit application process as we will only need to deal with the Town of Rushford and East Central. Thank you for your assistance in this matter.

Very truly yours,

A handwritten signature in black ink, appearing to read "Jeff A. Christensen".
