Dear Mr. Zwicky:

I am sorry for the misunderstanding of the location of the creek which you requested a navigability determination on. Kathy Larsen called and gave me the correct location.

On June 16, 1992 when I looked at the creek which crosses beneath old 21, I also did look at the ditch you were referring to, Section 17, T18N, R16E, Winnebago County. That unnamed ditch located in the Town of Algoma is non-navigable as there are not defined banks or a bed and it is a drainage ditch.

If you have any questions, please call me at 414-424-4003.

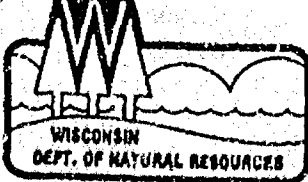

Sincerely,

Tere Locke

Dear Mr. Zwicky:

This letter is in response to your request for a navigability determination of a creek located in the Town of Algoma, E 1/2, Section 17, T18N, R16E, Winnebago County. The creek which I looked at on June 16, 1992 crosses beneath Old Hwy 21 and also beneath Honey Creek Road to the south of Old Hwy 21. This creek is navigable as there are defined banks, a bed and there is sufficient water to float a small watercraft on an annual recurring basis.

If you have any questions please call me at 414-424-4003.

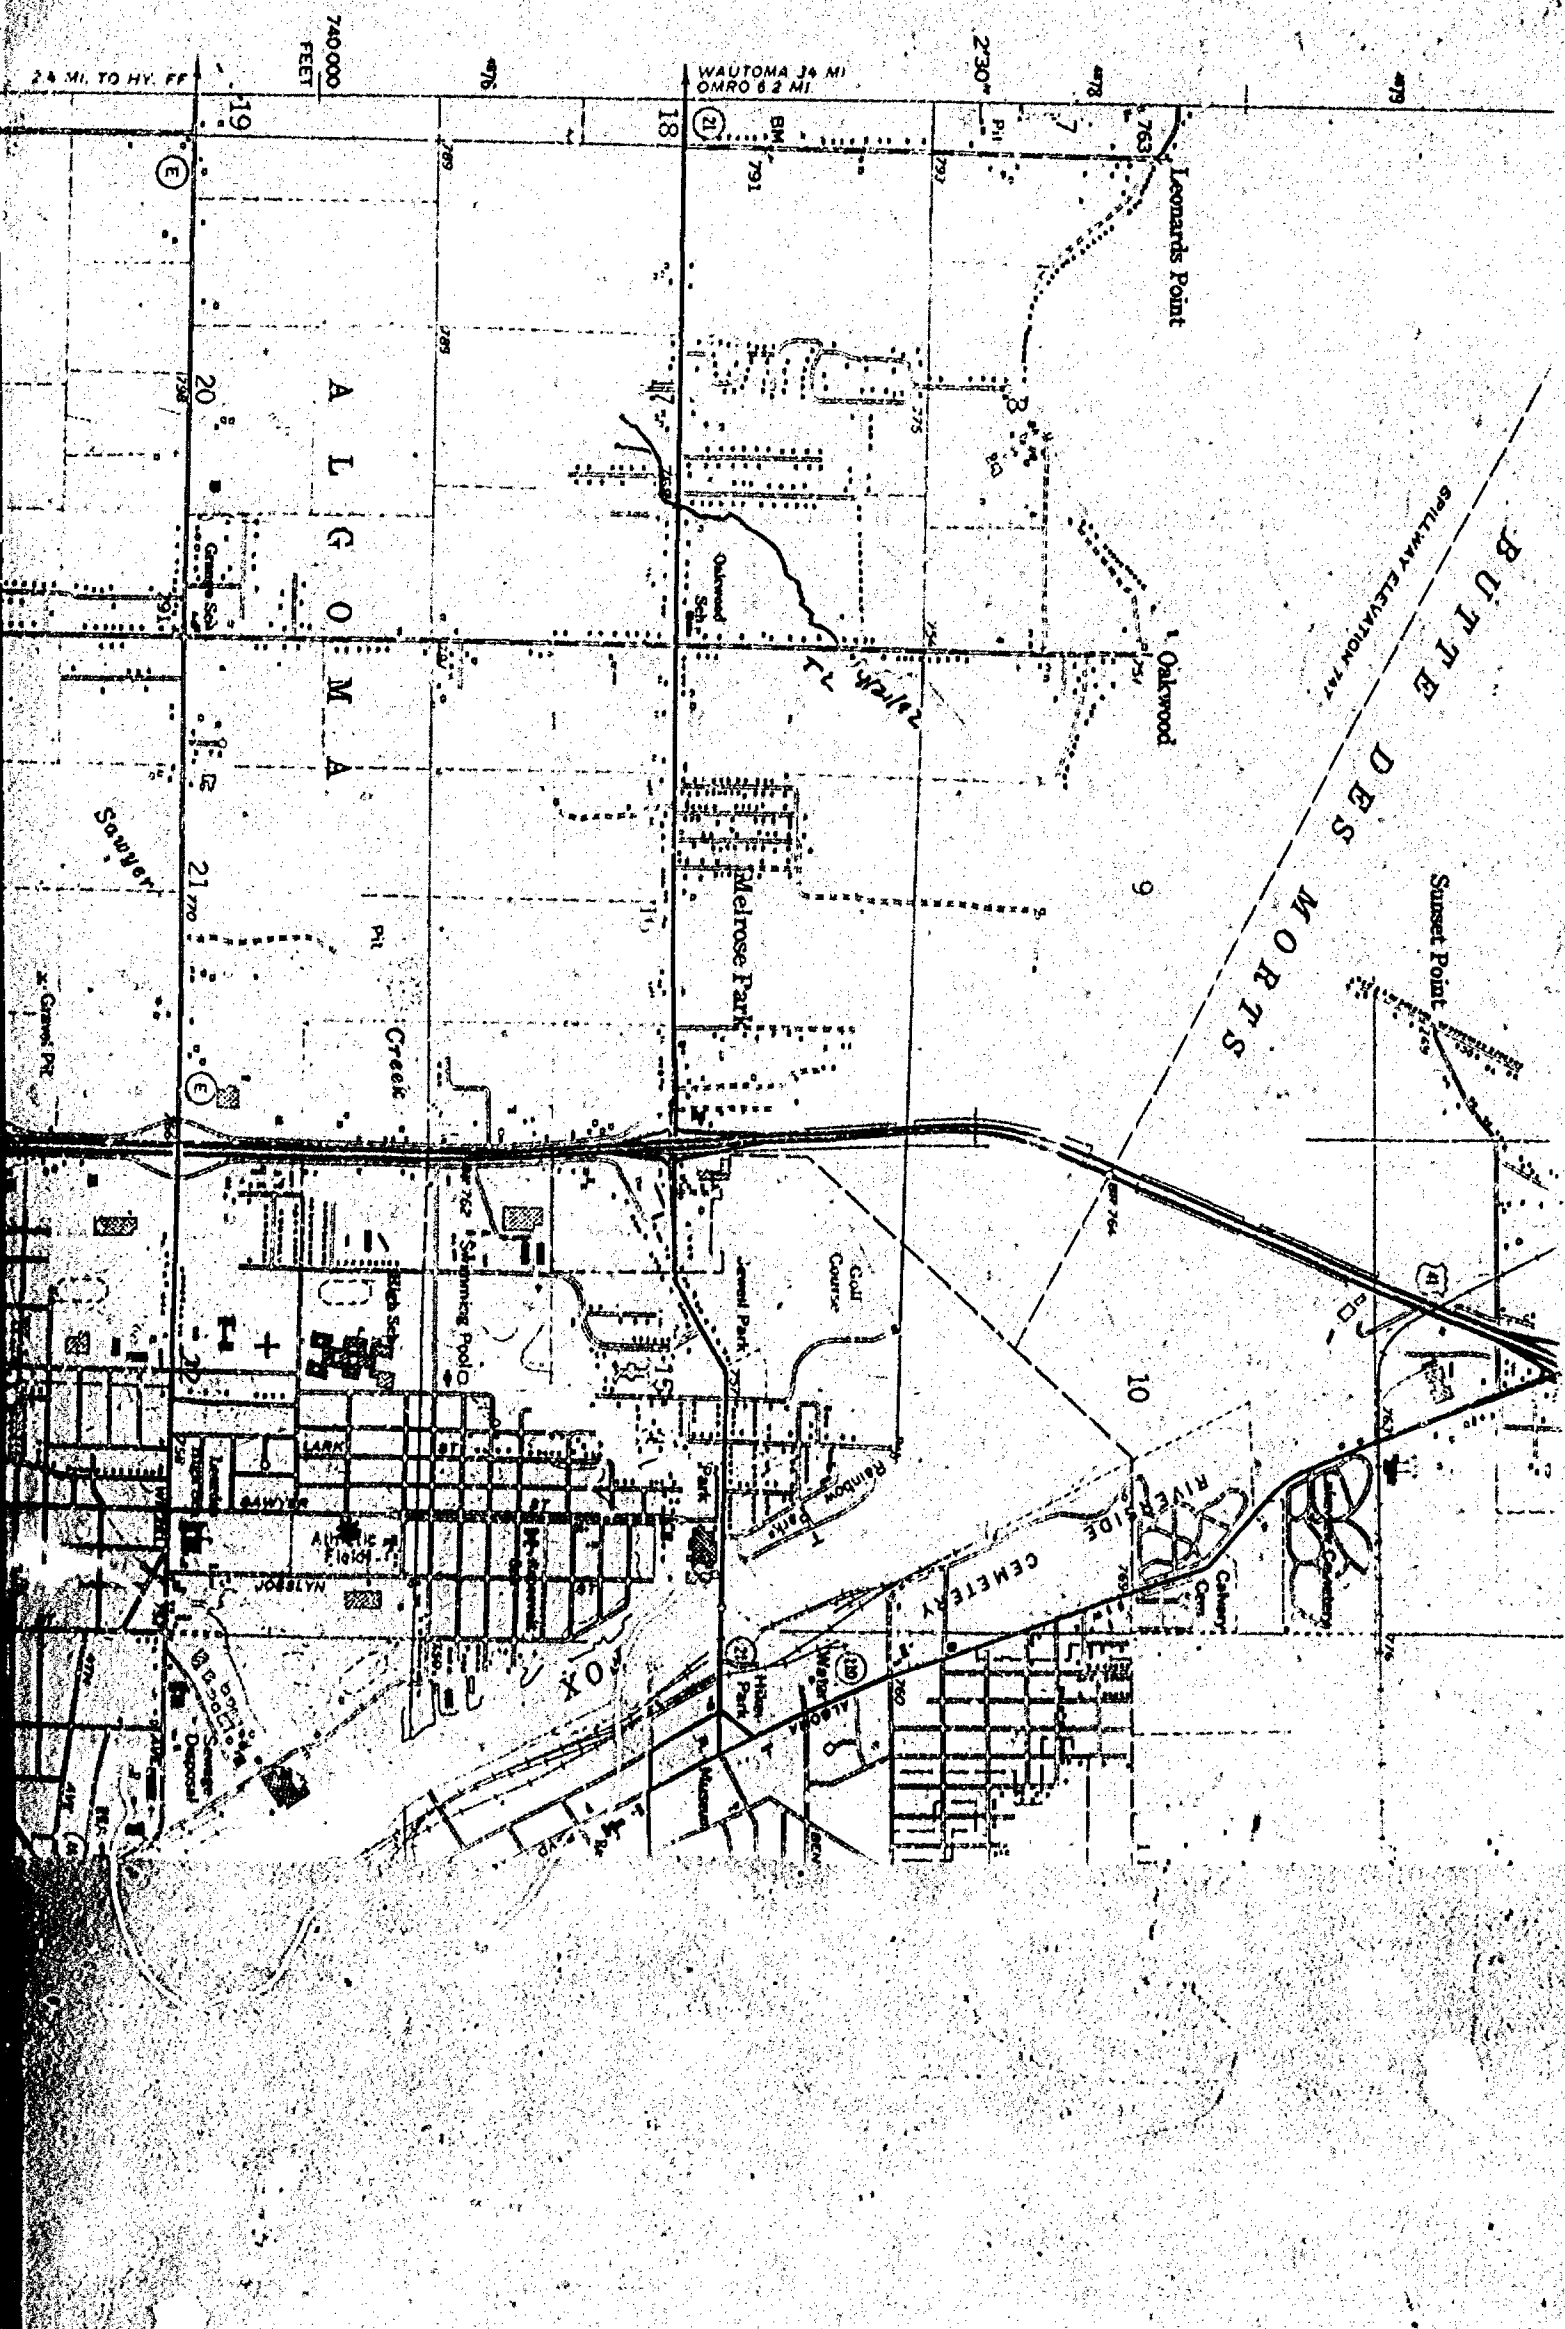

Sincerely,

Tere Locke

Bob - do you
want to keep this
one on file - it
identifies the stream
closer to Hwy 21
as navigable.

Dear Mr. Worden:

This letter is in response to your request for a navigability determination of an unnamed creek located in the Town of Algoma, Section 17, T18N, R16E, Winnebago County. On March 10, 1992 I walked this creek and determined it to be non navigable as there is not enough water to float a small craft in it on an annual recurring basis. A Chapter 30 permit is required if dredging of the creek is planned.

If you have any questions please call me at 414-424-4003.

Sincerely,

Tere Locke
