Dear Ms. Paulson:

This letter follows up your request for a navigability determination for a waterway located in Section 17, Township 18 North, Range 16 East, Town of Algoma, Winnebago County.

A field investigation was completed on December 16, 1999. There is currently no evidence of the existence of a waterway that flows through your property. There is a small drainageway located to the north of your property that may be the remains of a waterway that was mapped in the past.

Based upon the site inspection, the waterway on this property does not exist therefore does not meet the state definition of "navigable waterway". Enclosed is a copy of the USGS topographic map highlighting the waterway in question. If you have any questions about this determination, please contact me directly.

Sincerely,

Dear Mr. Wesner:

This letter is in response to your request for a navigability determination of
a ditch which parallels Sheldon Drive behind your house.

On April 6, 1995 I was at this location and determined the ditch to be non
navigable from Valley Road as it parallels Sheldon Drive. The ditch may
become navigable further downstream but is non navigable behind your house.

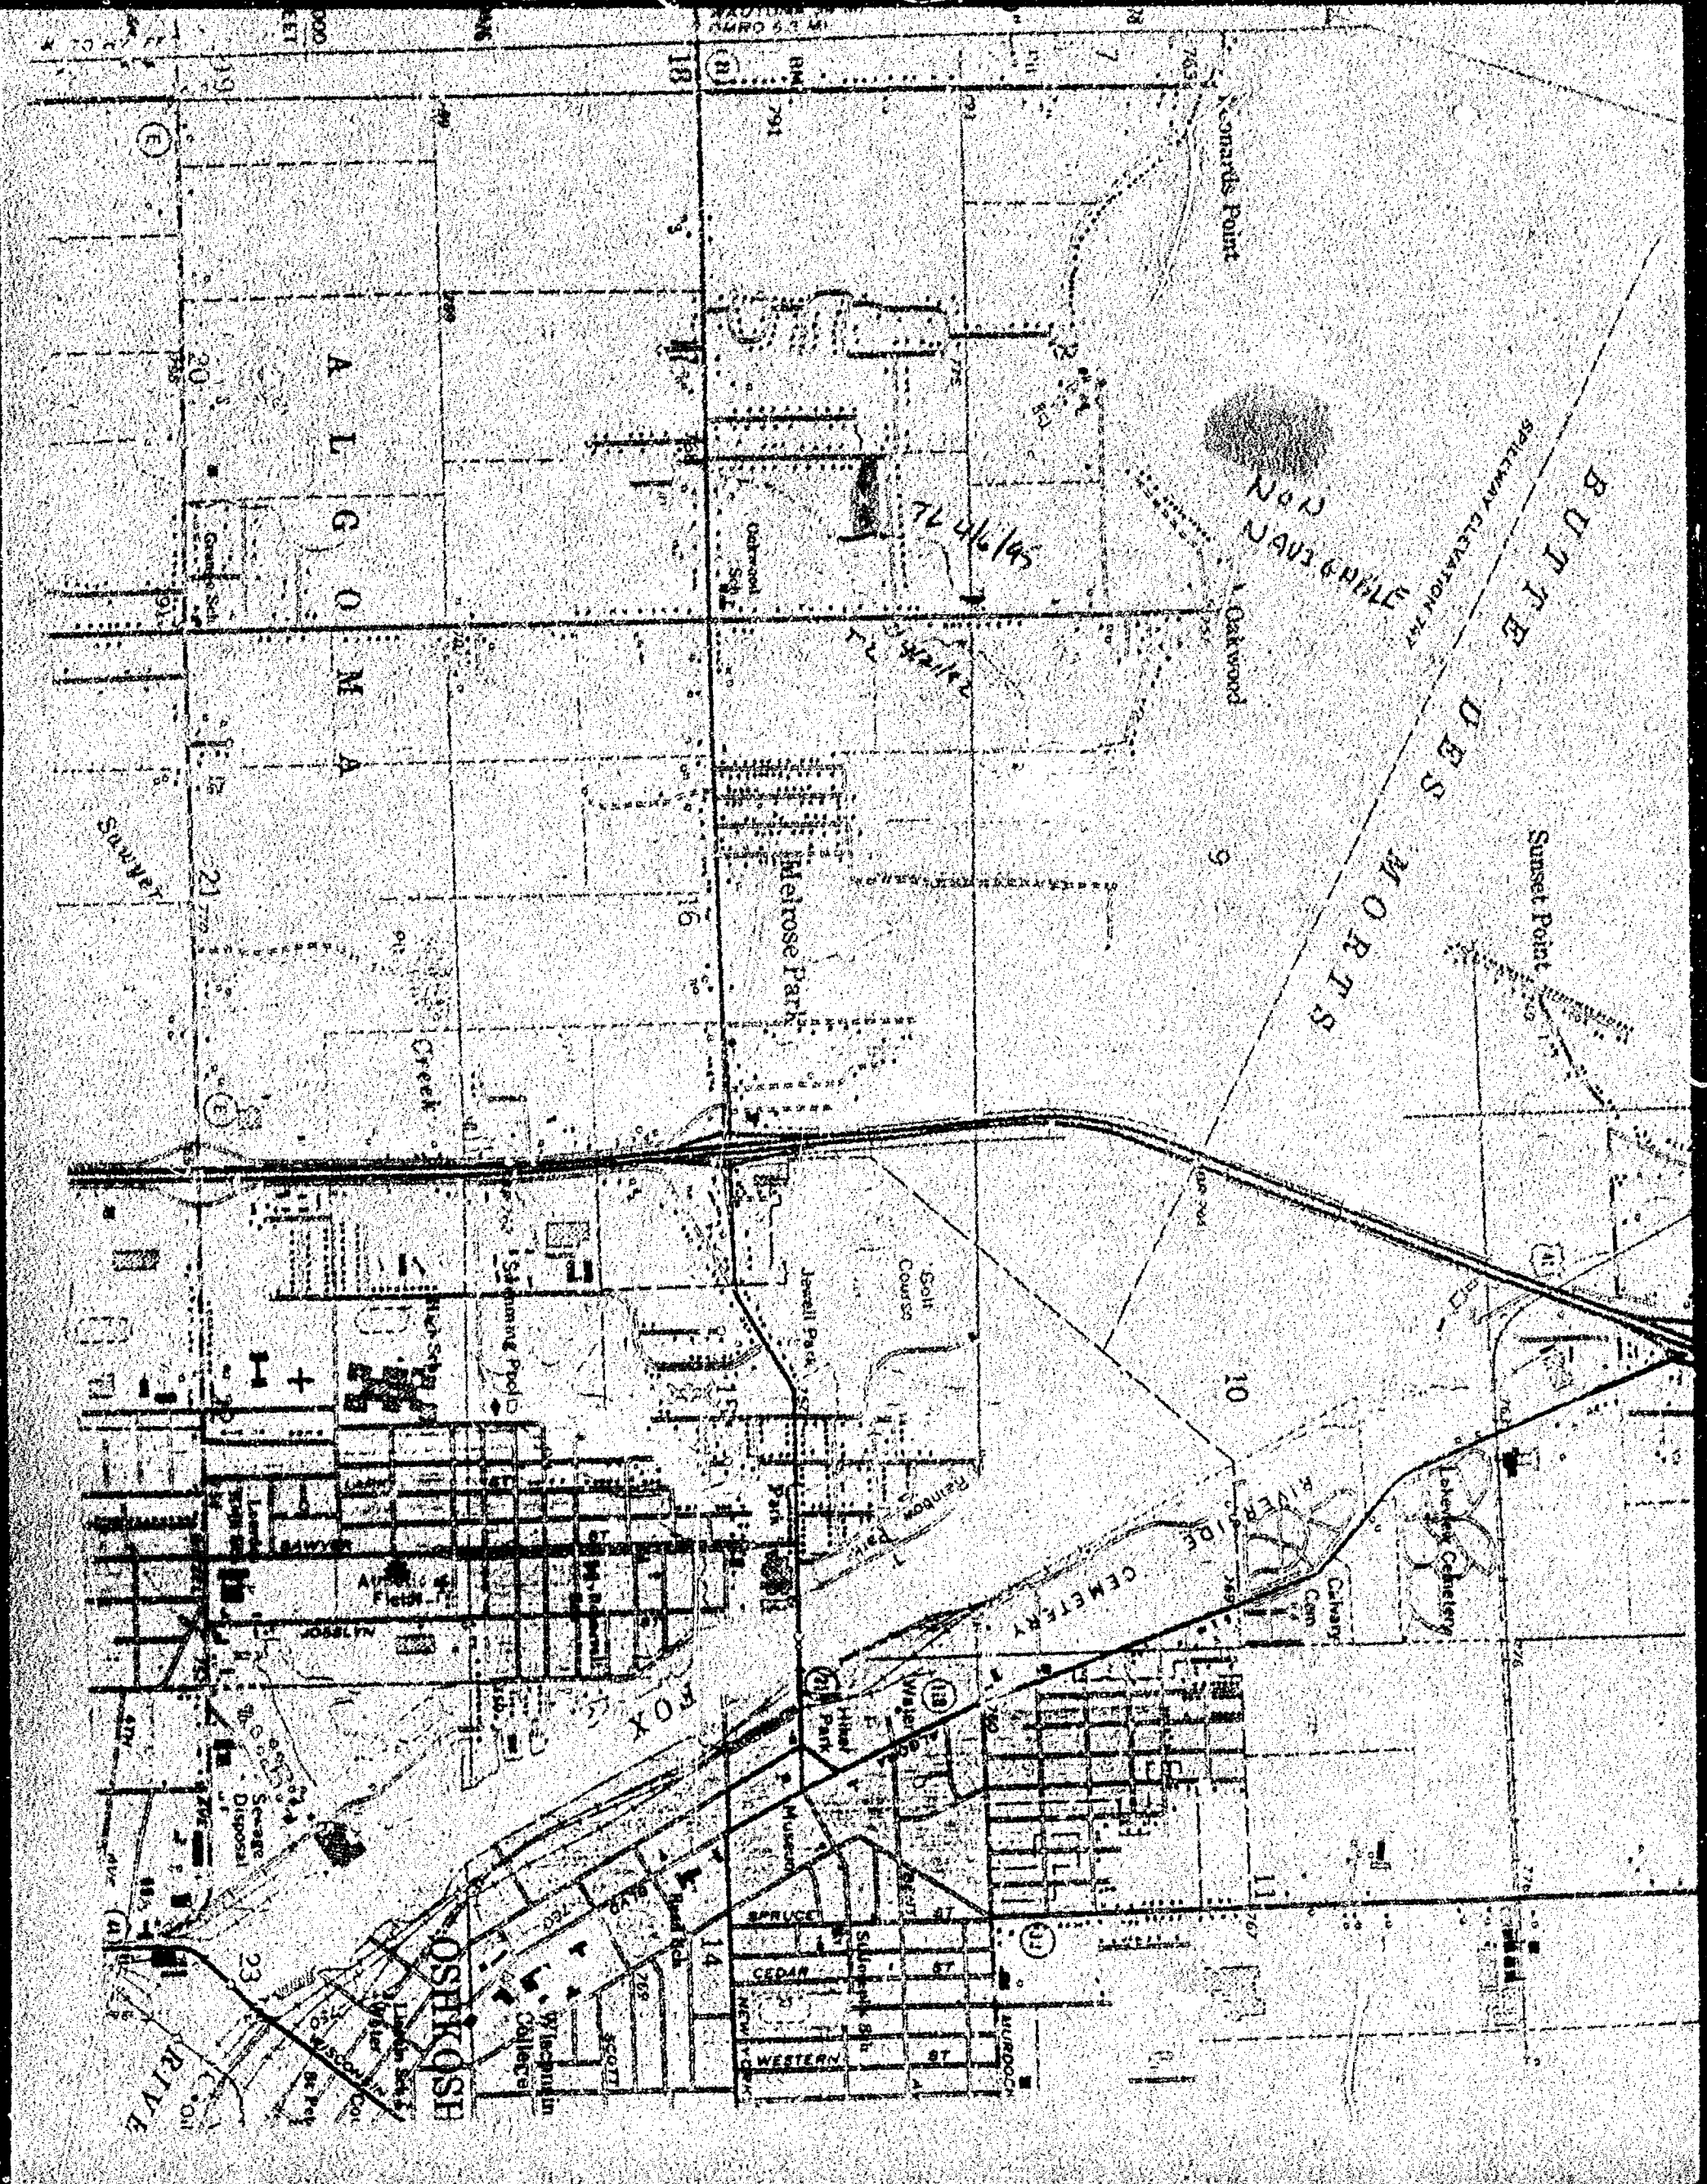

If you have any questions please contact me at the above address or call me at

Dear Mr. Wenrich:

This letter is a follow up to my navigability determination of the unnamed ditch which appeared to go behind your property years ago. It is no longer located behind your property.

I determined the portion which is located to the west of your property as non navigable. However, the ditch may become navigable downstream from the bend.

If you have any questions please contact me at the above address or call me at 414-424-4003.

Sincerely,
