Subject: Navigability Determination

Dear Mr. Bailey:

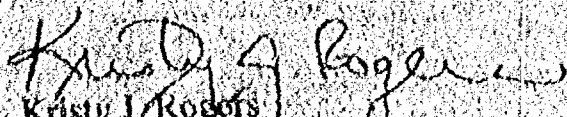

This follows up your request for a navigability determination for a waterway located in the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$, Section 5, Township 19 North, Range 16 East, Winnebago County. Attached is a topographic map highlighting the location of the waterway.

A site investigation was completed on September 17, 2001. The waterway has a defined bed and bank and is capable of floating a small watercraft on a reoccurring basis. The waterway meets the definition of "navigable" as set forth in Wis. Stats. Chapter 30.

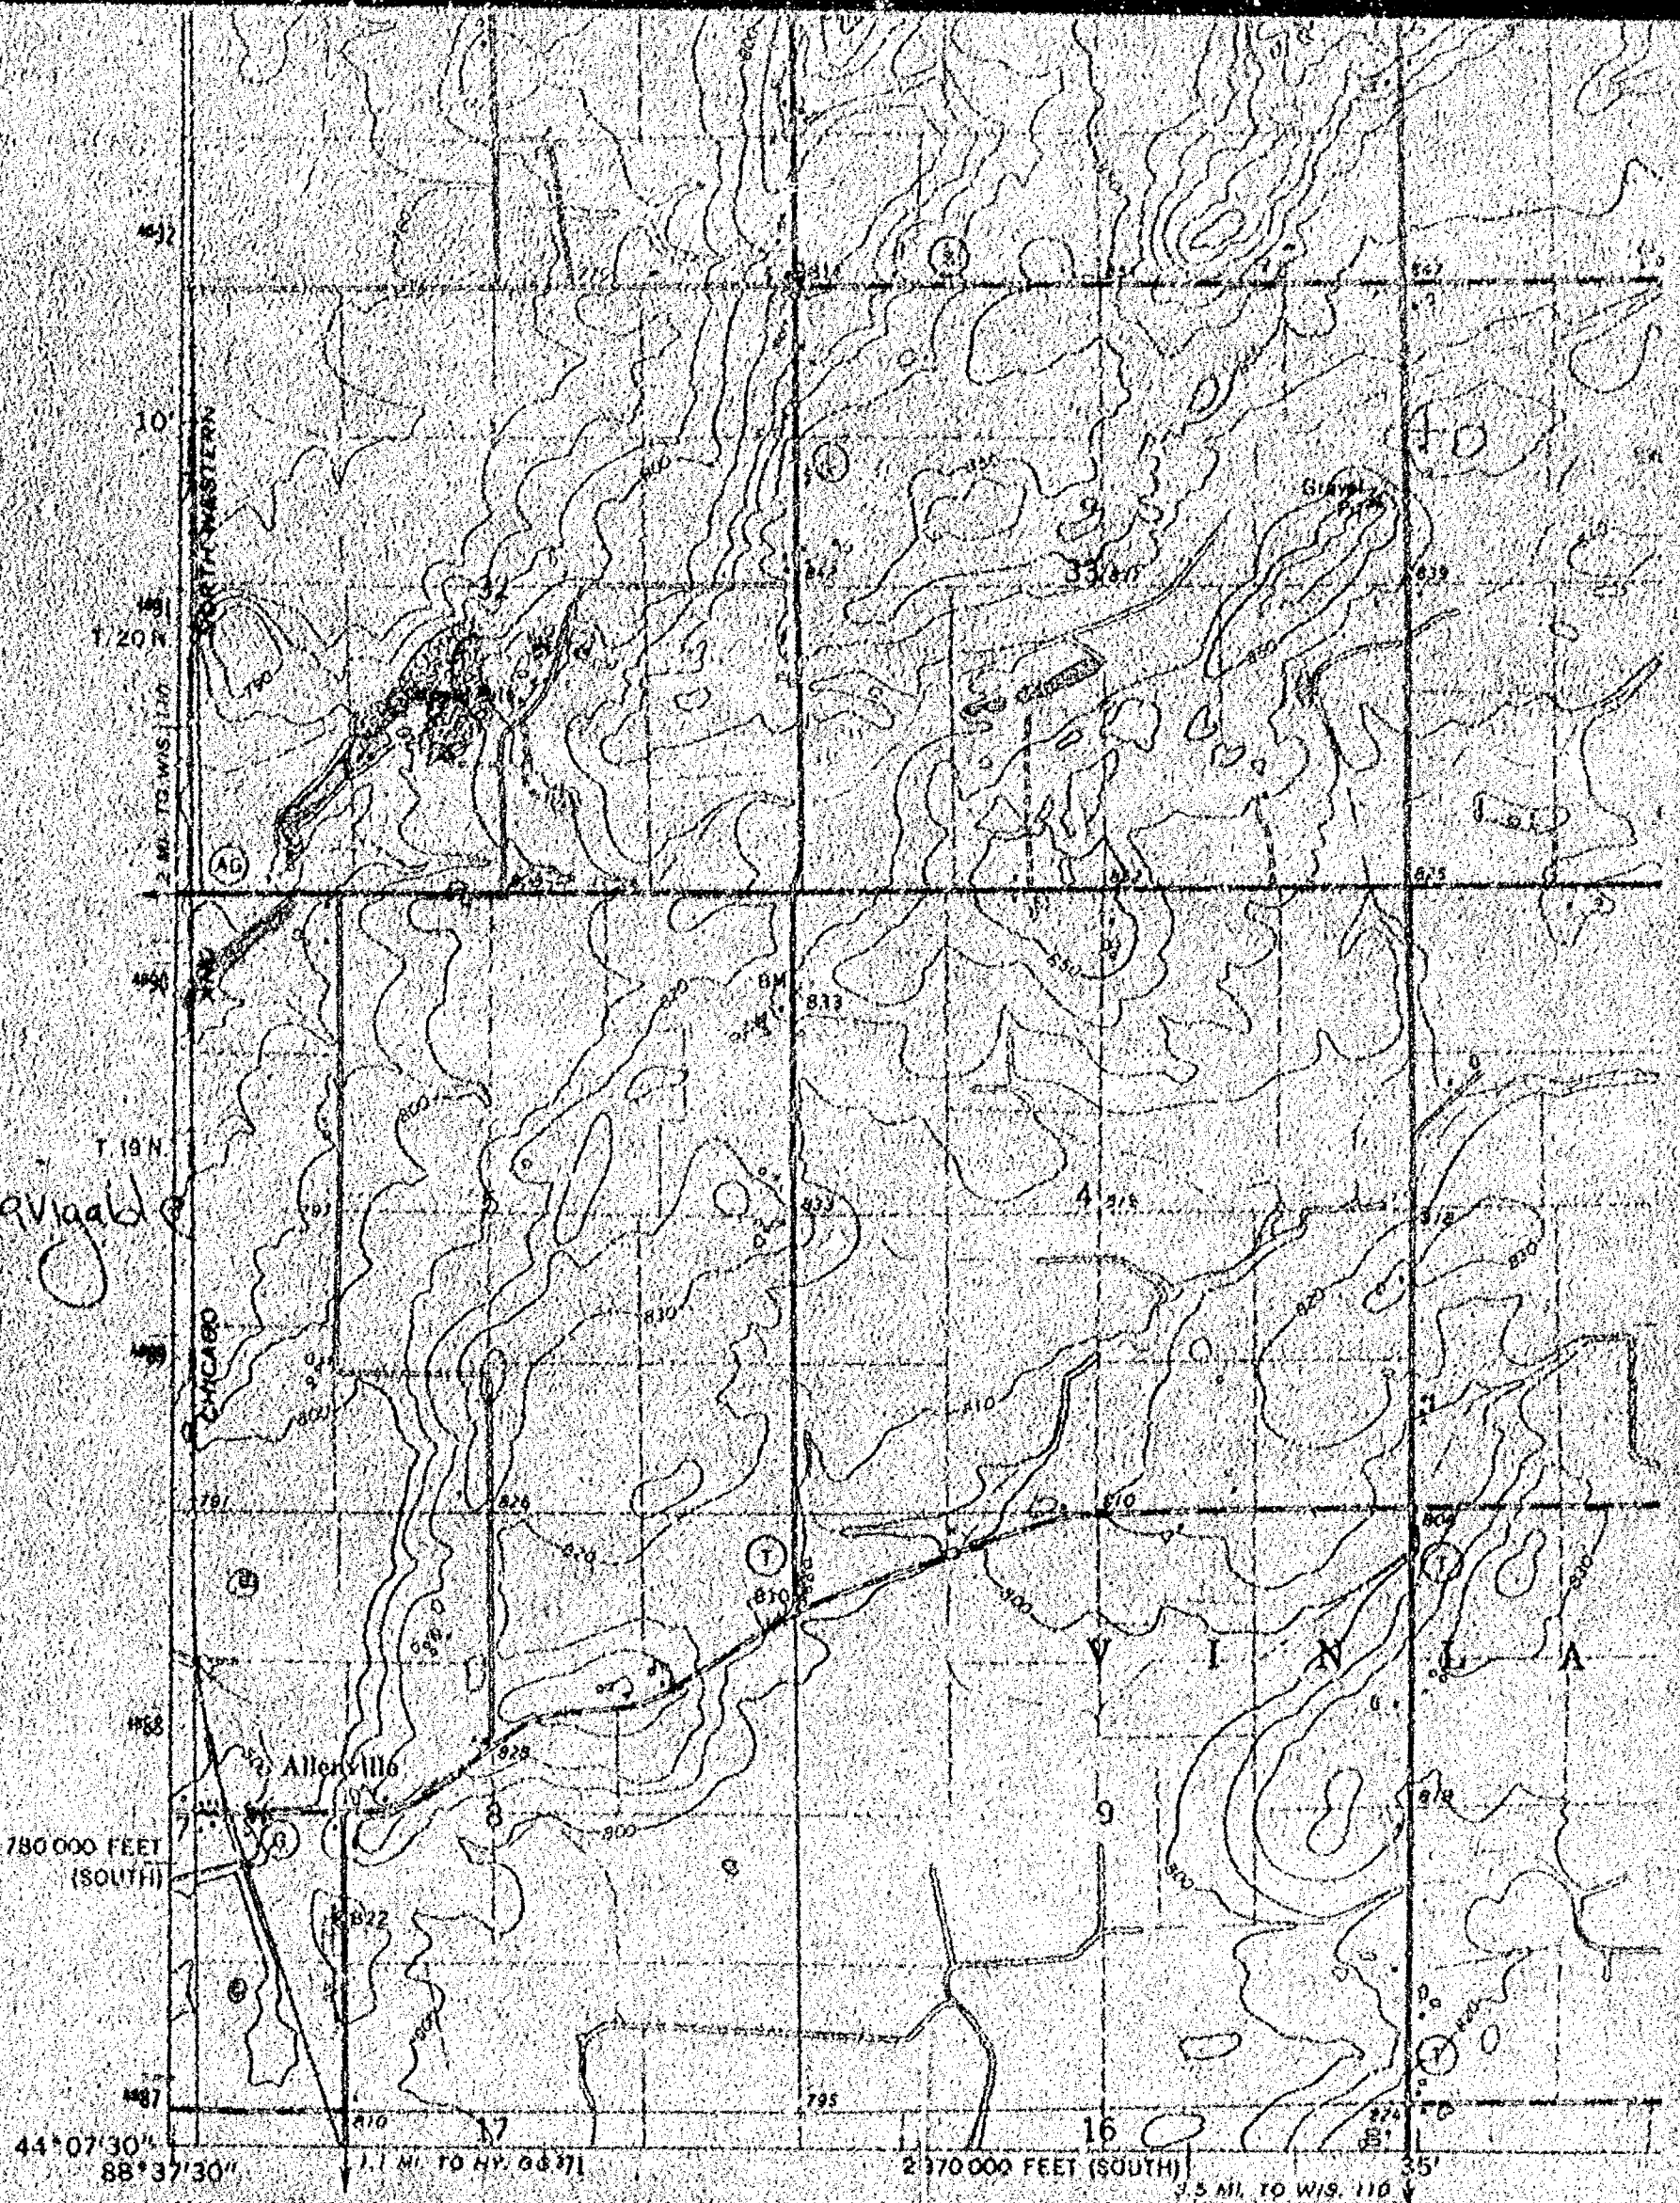

The Department has direct jurisdiction over activities in and near the waterway. In addition, Winnebago County regulates a shoreland zone around the waterway.

Please call me at (920) 424-7885 with any questions.

Sincerely,

Kristy J. Rogers

SUBJECT: Navigability determination of a tributary to the Arrowhead River located in the NW1/4, NW1/4, Section 3, T19N, R15E, Town of Vinland, Winnebago County.

Dear Mr. Nickel:

This letter is in response to your request for a navigability determination of an unnamed tributary to the Arrowhead River located in the Town of Vinland.

On June 26, 1995 I was at this location and determined the stream to be navigable as there are defined banks, a bed and sufficient water to float a small recreational craft on, on an annual recurring basis.

In order to place a culvert or bridge across the stream a Chapter 30 permit is required from the Department.

I also observed that the creek is bordered by a wetland. In order to put a road crossing through the wetland a permit is required from the U.S. Army Corps of Engineers. Please contact Gary Knapp, 211 N. Broadway, Green Bay, WI 54303, telephone 414-448-2824.

Attached is an application for the culvert/bridge crossing which will give you some idea of the requirements needed for the permit.

If you have any questions please contact me at the above address or call me at 414-424-4083.

Sincerely,

Tere Locke
